PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/662,118	Applicant(s) HINTEN, DEBORAH JEAN	
	Examiner Marie Patterson	Art Unit 3728	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-5 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. The claim(s) must be in one sentence form only. Note the format of the claims in the patent(s) cited.

In claim 1 the phrase “the built in insoles” lacks proper antecedent basis rendering the claim vague and indefinite. It is not clear if applicant is claiming solely two sole layers or if applicant intends to positively recite and claim the combination of a shoe with an outsole and insole with a two layer sole.

In claim 2 the phrase “removable insoles or have enough room...” and “preferably tie skateboard shoes...or Ifat sturdy shoes...” are alternative, indefinite, vague, and it is not clear what structural limitations applicant intends to encompass with such language.

Claims 3-5 are functional, indefinite, and confusing as to what structural limitations applicant intends to encompass with such language. These claims do not recite any structural limitations.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hyde (183675) in view of Ghez (2370303) or Moore (4773170).

Hyde shows an invention comprising a sole wood layer (A), fastened to an insole (D) and an outsole (C) substantially as claimed except for a rubber layer below the wood layer. Ghez or Moore teaches providing a rubber layer (18 or 36) on the bottom of a wood layer (15 or 14). It would have been obvious to provide a rubber layer below the wood layer as taught by either Ghez or Moore in the invention of Hyde to provide traction and to increase the durability of the shoe.

1. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
